Practical Front Corsets
We also carry these popular corsets at prices to sell above $5.00 per pair

So many women do not know what a P. N. Practical Front Corset really is, we will tell you all about it. Perhaps the very choicest thing about the P. N. Practical Front Corset is the pliable elastic vest which clasps before lacing so surely and directly at the center of the body, never crooked, always true—before you start to lace you know that for the day the corset will stay where it belongs and never ride up to spoil your perfect comfort and good frock lines. Having clasped the inner vest, you lace the outer flap through Eluson eyelets quickly and effortlessly over flat hooks as you would lace your shoe. The strain is removed from the elastic vest and the lacing takes it and places it you know not where—it never bothers you.
P. N. Practical Front Corset, elastic all around the top, in plain pink coutil, for the average figure 6.00
P. N. Practical Front, plain white coutil, for the short or tall well developed woman 5.00
P. N. Practical Front, plain pink model, for the short type of woman, elastic inserts under bust .. 5.00

## Good Work of Ald. Wilson

Ald. "Benny" Wilson is a quick mover, as about everyone knows, but his record may stand on his action in getting the Elevated road to improve its Englewood service, especially on the Normal park line within the week from the day the Times called Ald. Wilson's attention to their deficiency.

More trains are put on the Englewood main line, both express and locals, and on the 69th st. spur, trains of two cars will be run at intervals of six minutes during the rush hours morning and evening, and the single car service during the day and night will be more frequent. Mr. Wilson is to be thanked for his prompt and successful efforts in behalf of the people, and at the same time we wish to thank the company for their compliance with their patrons' request.

## Send in Your Englewood Reminiscences

Now that the vacation season is about over, the committee appointed by the Englewood Business Men's association will get to work on compiling necessary data for "The Story of Englewood." We have received much valuable matter and had a number of personal interviews that will be used, but there are dozens of good old timers who have not as yet sent in anything and we wish they would do so at once. We must have the co-operation of all to make this a success, and we hope that we may receive this necessary assistance. Write what you wish in any style or without any style on any kind of paper and we will use what we need, putting it in the proper language and place. A few good stories of old residents will be most acceptable. No matter how small or large your contribution to the story may be, it will be appreciated. Send them to any member of the committee or to the chairman, Gerald E. Sullivan, care of Englewood Times.

## Send Them to School

The opening of the schools Tuesday showed a wonderful increase in attendance over any previous year, yet the observer on the street cannot but notice many boys and girls of school age who should be attending school. Many children who have graduated from grammar school think they have education enough, and spend the next year or two loafing, although ostensibly "looking for a job." At the present time when "situations" are impossible, and "jobs" none too plentiful, and if the parents can possibly afford to keep their children in this class, they should be sent to high school or some commercial college where they may learn practical business methods. Idleness and loafing at this critical period in a youngster's life, is the most injurious to them of any period, and the Juvenile courts are filled with the boys and girls who "can't find a job," and are loafing about meeting acquaintances they should not meet, and forming habits that will soon put them to the bad unless curbed right now. There seems to be a tendency to consider a child his or her own "boss" as soon as they have passed the grammar schools. Generally the state of Illinois becomes their boss in some penal institution unless their parents are watchful. The night schools will soon open and those employed should select a course and attend them; above all, don't allow loafing or idleness in boy or girl.

## Please Write Plainly

While we appreciate locals and articles of local interest sent us, we can not spend hours in deciphering them. It is not crude penmanship that bothers a compositor so much as those who put on the "curleycues" and flourishes that cross the lines. Take plenty of space, also always give initials of names, and the correct address to identify people properly. If using a telephone be sure to use the exchange. We receive many ads without this important feature. Don't send us "card of thanks," we don't believe in them, and charge regular rates for publishing them, twenty-five cents a line. All copy must be in by Wednesday evening.

Dr. Hugh McNeill and family of 6757 Lafayette ave. have returned from a month's auto trip through northern Canada and greatly enjoyed the beautiful scenery and climate of that fair land.

### Sand—$6,000 a Ton.

Wilmington, Del., has a dozen of the most expensive sand piles in the world. It costs $6,000 a ton, says the Portland Oregonian.

The reason for this, and incidentally a reason for high-priced gloves, was revealed the other day by a prominent leather merchant.

Wilmington is the chief glazed-kid center in the United States. About 26 per cent of the raw skins entering the United States come from China and are imported at the rate of about $1 a pound.

"What, then," asked the merchant "would be more natural to the cunning celestials than to increase the weight of the skins by sprinkling sand on them?"

That is just what happens and the result is huge piles of sand at receiving plants here, where the hides are dried and prepared for manufacture.

### Peanut Not Really a Nut.

The peanut is not a nut; it is a pea. It is a trailing, straggling plant, growing from one to two feet high, with thick, angular, pale green, hairy stems and spreading branches, and it ripens its fruit or its peas or nuts, under ground. It is a strange habit. Small yellow flowers are borne at the joints where the leaves are attached to the stems and as soon as pollination takes place the flower fades and the "peg," as it is commonly called, buries itself in the ground, where the pod develops.

### Putting It in a Nutshell.

An ounce of prevention is worth a pound of cure; only we don't know when to apply the prevention and we do know when to apply the cure.

*We Want a Slogan to Express the Industrial Use of Gas*

WE wish to secure a single phrase or slogan which will summarize the advantages of gas for industrial purposes. Gas in industry is much more than a fuel. Gas is so dependable, economical and flexible for a wide variety of factory and shop uses that it becomes in a sense an improved process. The use of gas for a thousand different factory operations makes for increased efficiency, better product, more uniform production and all-around economy.

Can you devise a slogan which will tell this story in one brief, pithy phrase? To indicate the general character of what we wish to secure, we quote such phrases as "Gas, the 100% Fuel" or "Gas, an Efficient Tool for 1,000 Shop Uses." Do not pattern your slogan after these, or any slogans the Company has used. They merely indicate the general character of what we are seeking.

All slogans must be submitted by October 15, 1921. The judges for the competition are: Hon. Edward N. Hurley, former chairman of the U. S. Shipping Board; W. Frank McClure, chairman, Advertising Council, Chicago Association of Commerce; W. H. Graffis, editor, Gas Record.

*We suggest it would be of decided assistance for you to be fully informed regarding gas and its scope for industrial use. Upon request we will gladly send you informative literature upon this subject.*

# NEWS

The schools all opened Tuesday with an unusually large attendance.

The opening of Union ave. through from 63rd st. north is absolutely necessary to relieve the over travel on Halsted st.

There is no waste circulation to the Times. Every paper is delivered by mail carrier and reaches from one to five readers.

From the number of colored children attending the schools in parts of this district, it looks as if they could have schools of their own.

Few people are using the free garage the Businessmen's Association has provided for them, and the congestion on Halsted st. is very bad, especially in the evenings.

Mrs. Julien W. Mathis, formerly of 6430 Peoria st., now of La Porte, Ind., announces the marriage of her daughter, Marian, to Carlos D. Wiseman of Hyde Park.

Complaint that every "soft" drink place in this part of the city is selling rotten booze, and judging from the number of drunks Monday day and evening, it must be true.

The police have arrested a number of autoists who insist upon driving with their "cut-outs" open. If drivers want to make the extra noise, they should be willing to pay for it.

Perez Council K. C. baseball team played the Fire Fighters in a twilight game Wednesday evening at Marquette Manor grounds. A program of interesting athletic stunts and dancing followed, making it a most enjoyable occasion.

Mr. and Mrs. Theo Linstrum, of 5946 Halsted st., and Mrs. Fred T. Linstrum of 354 E. 56th st., returned Labor day after a most delightful six weeks' trip, leaving Chicago by auto and covering the New England states, visiting friends and relatives and taking in points of interest in these states, the most pleasing at Plymouth, Mass., where the Pilgrims landed, and in time to witness their march to church and religious worship connected with the same.

## Sad Death of a Soldier Boy

Alphaus Burke, son of Mr. and Mrs. Omer Burke of 6240 Sangamon st., marched bravely away when his country called, and served two years with Co. B, 131st Infantry, and fought all through the blood-stained fields of France. His comrades, many boyhood friends, dropped at his side, but he fought on and came home unscathed, greatly to the joy of his beloved parents. Later he secured a position as assistant engineer with the Wilson Packing Co., and was one of its most efficient employes. Sunday evening, noting a slight leak in the steam in the big boilers, he and his engineer rushed to shut off the steam when the cylinder head blew out and pinning both against the wall, killed them instantly. The remains were brought to the home of his parents, from where they were buried Thursday with full military honors under auspices of Capt. Marshall Field post of Veterans of Foreign Wars, of which he was an honored member. Interment was at Mt. Greenwood. He leaves besides his bereaved parents two sisters, Miss Marie Burke and Mrs. Albert Korinek.

### Wild Elephants Against Horsemen.

In Burmah wild elephants are pitted against horsemen and elephant riders and often rout their trained relatives by the reckless fury of their attacks. The "cornac" has to stick to his seat, while his hutti quirts and careens around like an exploding locomotive or encounters his adversary with the force of a catapult. Fighting elephants guard their trunks by doubling them up like a clinched fist, while using their heads like battering rams or they stand shoulder to shoulder, after the manner of the fighting bears, and after a prelude of sidelong pushes, suddenly flew away at each other with their tusks. During the process of the duel the hutti seems to forget or ignore his rider, but if he has received a fatal wound the cornacs have to jump off and run for their lives, experience having shown that wounded elephants generally expire in a paroxysm of rage.—Detroit News.

## WANTED TO "GO IT ALONE"

**Many Years Ago Missouri Declared Her Ambition to Become an Independent Republic.**

Missouri once had intention of setting up as an independent republic all by herself. The Session acts, state of Missouri, 1838-1839, contain a memorial to the congress of the United States relative to the Santa Fe trade. It tells of an expedition of traders to Santa Fe in 1812 from St. Louis, though it is not specifically stated that they went over the Santa Fe trail.

The early Session acts of the Missouri legislature, starting in 1824, contain many interesting resolutions and memorials to congress on all manner of political and historical subjects. Incidentally the Missouri constitution of 1820 starts with the preamble that the citizens of the state agree to form and establish a free and independent republic by the name of the state of Missouri.

Missouri was one of the pivotal states in the history of this country. It was made such in the ancient fight in congress over the slavery question, which took up the admission of free and slave states and considered the balance thereof in congress. Missouri was also a pivotal state in yet another and larger sense—she was the jumping-off place for that wild and unknown country called the Wild West—the land west of the Missouri river. She made the midway point between the frontiersmen of Kentucky and those of the great plains, occupying a generation of history herself as a frontier commonwealth.

### Washington's Religion.

There has been considerable controversy over the extent to which religious belief entered into Washington's character. His own chronicles show that most of his Sundays, except during the presidency, when he felt obliged to set an example, he spent in answering letters, going over his accounts, hunting or doing any business that those with whom he was negotiating had no scruples. In choosing people to work for him he set up no barriers of creed, judging men from the standpoint of honesty, industry and ability.

### The Number of Hairs.

Data gathered in this relation show that fair-haired persons possess, commonly, between 140,000 and 160,000 hairs on the scalp, the number being about the same for man and woman. Dark-haired persons have on an average, about 105,000, while red-haired persons are said to have only 90,000 hairs. But the latter apparently possess one great advantage in the fact that they retain their hair better, seldom becoming bald. Their hair is much coarser than that of dark or fair-haired persons.

### Improvement Always Mutual.

No improvement that takes place in either of the sexes, can be confined to itself; each is a universal mirror to each; and the respective refinement of the one will be in reciprocal proportion to the polish of the other.—Fuller.

## Harvard

September generally sees the opening of the best pictures of the season, those taken during the summer at the plants of the big producing houses, and Manager Coston of the Harvard theatre who was early in his bookings will have an exceptionally fine list of films for this month. For the coming week the attractions are varied and top liners, everyone.

For today and tomorrow, Friday and Saturday, Sept. 9th and 10th, he offers Dorothy Phillips in "Man, Woman, Marriage," the great society story of all ages, told in the virile style of Allen Holubar. Could you witness for a moment the barbaric beauties of the court of the ancient Rome do you think you could find comparison anywhere in the world today? Beautiful women, strong men, music and dancing everywhere. Just as they were then they are today, for in "Man, Woman, Marriage" Allen Holubar has contrasted the pagan courts of ancient Rome with the fashionable modern world. They are just two of a thousand terrific scenes in an unparalleled screen achievement. Also other select short playlets and Topical News.

ALICE BRADY

For Sunday and Monday, Sept. 11th and 12, continuous 2 to 11:30, Mr. Coston will present the most brilliant of movie stars, Betty Compton, who has endeared herself to Englewood hearts in several plays, in "At the End of the World." The story concerns the beautiful daughter of an Englishman who keeps a gambling hall and cafe in Shanghai, China. The father is killed in a gambling row and the girl, although in love with Gordon Deane, marries William Blaine, a Shanghai banker, thinking Deane has gone away never to return. As the story progresses, the destinies of two other men, Donald MacGregor, a deeply religious seafaring man who believes that Cherry loves him, and Harvey Allen, a weakling who commits a forgery in order to shower her with gifts, are interwoven with her own. The climax takes place on a far-away lighthouse island where Fate has brought the three men and the girl together. Also Fatty Arbuckle with Buster Keaton and Al St. John in the classic comedy, "The Cook," Pathe News and, matinee only, "The Purple Riders."

On Tuesday, Sept. 13th, matinee and night, the beautiful and talented Alice Brady in "Little Italy." The story concerns the life in a thriving colony of truck farmers who live near the great New York market, carrying on a brisk trade in garden produce and growing wealthy, but remaining aloof from the American life all about them, and retaining all their native customs, beliefs and feuds. Also Burton Holmes Travelogues, Christie comedy and Gaumont News.

On Wednesday, Sept. 14th, matinee and night, Mr. Coston will offer the wonderful American drama of today, "The Blot." This is pronounced as a greater heart-story than "Humoresque." A play of the depths and heights in human life that will appeal to your better conscience. The cast is an all-star one and one of Lois Weber's best productions. Also a new two-part screen comedy, Screen Magazine, and Topical Events.

### Pumpernickel.

Pumpernickel is the rye bread used by the Westphalian peasants, which in some other parts of Germany is regarded as a great delicacy. The loaves are sometimes 60 pounds in weight. The name is said to have originated in the saying of a French cavalry soldier, who rejected the bread with disgust, saying it was only "Bon pour Nicholas"—that is, fit or good for Nicholas, his horse.

## See the Ku-Klux-Klan at the Marlowe

The Marlowe's opening week has been one of success and the regular fall and winter season promises to be one that will be enjoyable for the favored patrons of this popular house, the first in this part of the city that has lowered its prices to those of before the war, and still keeps up the excellence of its performances.

For Saturday and Sunday of this week, Sept. 10th and 11th, in addition to the five big vaudeville acts will be a wonderful tableaux act of feature dancing and posing by a troupe of ladies lately arrived from gay Paree and the capitals of Europe. Also the greatest novelty of the season, Geden's rabbit circus, showing rabbits that have been really educated to perform and understand the commands of their teacher. The picture event will be "The White Riders," featuring the night ridings of the Ku Klux Klan, and the latest of the mysterious actions of this mysterious organization.

## Englewood Theatre 100 Per Cent Union

"FOLLIES OF NEW YORK"

If there is any value to a laugh, those who go to the Englewood theatre week of Sept. 11, when "Follies of New York" will be the attraction, will be money in pocket for their visit. Fred Hinder has for years been most successful in entertaining burlesque audiences. His opposite, Lew Lederer, works well with him and is a most capable laugh-getter. Having secured competent mirth-provokers, Mr. E. Thomas Beatty proceeded to devise a

sufficiently funny vehicle for his production and has furnished for "Laughs a la Carte." But while the importance has been given to making this show an amusing one, the producer has not lost sight of the fact that burlesque audiences expect more than fun. He has given them a beauty show as well as a laughing one. Prettier girls than his choristers could hardly be imagined. More attractive wardrobe could hardly be expected, and scenery representing a higher degree of stage artistry would be a superfluity. The cast is in every way very competent to support the comedy workers and is composed of such talent as Sadie Banks, Al Turpie, Carol Carey, Mae Kelly, Wallace Jackson and Marty Welsh.

Ladies' bargain week-day matinees, seats 25c.

### Ancient "Chapman."

In olden days there was a merchant who would buy his stores in the cheapest market, load them into a wagon, and drive about the country, selling where he could. He was known as a chapman and the modern name is derived from that word. As the merchant's chief stock in trade was a jovial personality the word chap has long meant a jolly fellow.

### Worth-While Americans.

Americanism is loyalty to American institutions and the only loyalty which is worth while is a loyalty which expresses itself in service and sacrifice. There is great need to remember that the quality of our citizenship is determined by the quality of the character of citizens.—From the Churchman.

**To Save Is to Have**

Messages to Seekers of Success

Suppose you save 25 cents a day. That does not mean much to the average man. You won't miss it.

Yet that 25 cents a day in ten years grows to nearly a thousand dollars. And the interest, which we pay you for saving your money, brings the total to well over eleven hundred dollars.

Think of what you can do with this.

**Realize Your Dreams**

Just a few years of small but steady savings will bring you many of the things you are longing for. Perhaps you want a car. Perhaps you want to buy the farm next to you. Perhaps you want to start a son in business, or to go traveling, or to educate yourself or your children.

Saving will do all these. And best of all, you will have formed the saving habit and will never be one of the nine men out of every ten who pass their last years penniless—in the poorhouse or dependent on others.

They are secured by a first lien upon indestructable property—agricultural land which yields annual and successive harvests which always find a ready market. These securities are non-fluctuating—in which respect they differ from a bond or a stock investment which is always affected by market conditions. Every farm mortgage which we make remains continuously under our supervision until it is paid off in full. Interest and principal are collected and remitted to you without charge. Such an investment is as simple as a savings account and pays over twice as much.

Every issue contains all of the clean local news of the territory between Garfield blvd. and south city limits, State st. west to Chicago Lawn, gathered by our staff of correspondents who are residents of the different districts, thus being able to print the news that interests the people in each district, and making the Times the only reliable means of reaching the real active people of the territory. There are no blank tickets in an Englewood Times ad., every one is read by people who have money to spend or they would not pay for the paper. We have advertisers who have carried advertising with us for over thirty years continuously. Why do you suppose they have done it? Whatever you want to dispose of, whether merchandise or real estate, have a room to rent or a flying machine to sell, want a maid or a wife, want to exchange a threshing machine for a cambric needle—you will find it profitable to advertise it in the wide awake columns of the Times. Try it.

# SULLIVAN'S SENSE AND NONSENSE

**Not for Us**

The fairies have never a penny to spend,
They haven't a thing put by.
But theirs is the dower of birds and of flower,
And theirs are the earth and the sky.
And though you should live in a palace of gold,
Or sleep in a dried-up ditch,
You could never be poor as the fairies are,
And never as rich.

Since ever and ever the world began
They have danced like a ribbon of flame;
They have sung their song through the centuries long,
And yet it is never the same.
And though you be foolish or though you be wise,
With hair of silver or gold,
You could never be young as the fairies are,
And never as old.

Howcum? Certainly if the ladies, God bless them, want to wear knickerbockers, let them wear them, but do let them be practical and not pink silk and sich.

Say, girls, look a'here, what do you think of the Minneapolis judge who has ruled that so long as women exercise their franchise of voting, etc., they also may be compelled to pay alimony the same as other citizens?

A Joliet doctor who refused to be a barkeeper and would not write a booze prescription for a man, found it necessary to shoot the fellow to protect his life from his assault. Some physicians object to prostituting their profession at any rate.

Gosh, how some of the landlords are kicking because their valuations are raised because they raised their tenants' rent from 50 to 100 per cent! If their properties are worth so much more, they surely should be made to pay for the increased value.

Chief Fitzmorris orders the arrest of motorists who leave their "cutouts" open. How in thunder is a fellow to attract attention to his yellow Ford car built over as a racer, or the big guy with a ten-thousand machine get sufficient credit for being a hellofafellow unless they can crack the ear drums of the public with their screeching whistles and open cutouts?

Nearly every week one of our war ships brings over from the poppy fields of France the remains of some of our brave soldier boys who made the supreme sacrifice for the glorious flag of our country. Meantime congress and most all of the state legislatures are wasting precious moments refusing to take care of those of the boys left after them, or other boys who were able to return. Is it true as Voltaire said, "Republics are ungrateful"?

## Coming to Englewood

Lincoln Memorial Circle No. 90, Ladies of the Grand Army, are considering moving to Englewood from Woodlawn. This is one of the finest circles in the department, noted for their kind deeds toward all mankind but especially to the veterans of the civil war. At their last meeting Mrs. Blanche Berna, 5841 Fairfield ave., president of the circle, obligated Comrade Mann, who served 18 months in Ft. Leavenworth and who only weighed 75 pounds when he was given his liberty. He is now 86 years of age and in very good health. Ed Fournier, a son of a veteran and a member of Camp 6 Sons of Veterans, took the obligation. Mrs. Berna also initiated two ladies, making sixteen new members this year. Indications are that 1921 is to be the banner year for Circle No. 90. Englewood may be proud of such an addition if the circle decides to locate here.

Marguerite Armitage will dance the solos.

So many women do not know what a P. N. Practical Front Corset really is, we will tell you all about it. Perhaps the very choicest thing about the P. N. Practical Front Corset is the pliable elastic vest which clasps before lacing so surely and directly at the center of the body, never crooked, always true—before you start to lace you know that for the day the corset will stay where it belongs and never ride up to spoil your perfect comfort and good frock lines. Having clasped the inner vest, you lace the outer flap through Eliason eyelets quickly and effortlessly over flat hooks as you would lace your shoe. The strain is removed from the elastic vest and the lacing takes it and places it you know not where—it never bothers you.

P. N. Practical Front Corset, elastic all around the top, in plain pink coutil, for the average figure. **$5.00**
P. N. Practical Front, plain white coutil, for the short or tall well developed woman ..... **5.00**

## Good Work of Ald. Wilson

Ald. "Benny" Wilson is a quick mover, as about everyone knows, but his record may stand on his action in getting the Elevated road to improve its Englewood service, especially on the Normal park line within the week from the day the Times called Ald. Wilson's attention to their deficiency.

More trains are put on the Englewood main line, both express and locals, and on the 69th st. spur, trains of two cars will be run at intervals of six minutes during the rush hours morning and evening, and the single car service during the day and night will be more frequent. Mr. Wilson is to be thanked for his prompt and successful efforts in behalf of the people, and at the same time we wish to thank the company for their compliance with their patrons' request.

## Send in Your Englewood Reminiscences

Now that the vacation season is about over, the committee appointed by the Englewood Business Men's association will get to work on compiling necessary data for "The Story of Englewood." We have received much valuable matter and had a number of personal interviews that will be used, but there are dozens of good old timers who have not as yet sent in anything and we wish they would do so at once. We must have the co-operation of all to make this a success, and we hope that we may receive this necessary assistance. Write what you wish in any style or without any style on any kind of paper and we will use what we need, putting it in the proper language and place. A few good stories of old residents will be most acceptable. No matter how small or large your contribution to the story may be, it will be appreciated. Send them to any member of the committee or to the chairman, Gerald E. Sullivan, care of Englewood Times.

## Send Them to School

The opening of the schools Tuesday showed a wonderful increase in attendance over any previous year, yet the observer on the street cannot but notice many boys and girls of school age who should be attending school. Many children who have graduated from grammar school think they have education enough, and spend the next year or two loafing, although ostensibly "looking for a job." At the present time when "situations" are impossible, and "jobs" none too plentiful, and if the parents can possibly afford to keep their children in this class, they should be sent to high school or some commercial college where they may learn practical business methods. Idleness and loafing at this critical period in a youngster's life, is the most injurious to them of any period, and the Juvenile courts are filled with the boys and girls who "can't find a job," and are loafing about meeting acquaintances they should not meet, and forming habits that will soon put them to the bad unless curbed right now. There seems to be a tendency to consider a child his or her own "boss" as soon as they have passed the grammar schools. Generally the state of Illinois becomes their boss in some penal institution unless their parents are watchful. The night schools will soon open and those employed should select a course and attend them; above all, don't allow loafing or idleness in boy or girl.

## Please Write Plainly

While we appreciate locals and articles of local interest sent us, we can not spend hours in deciphering them. It is not crude penmanship that bothers a compositor so much as those who put on the "curleycues" and flourishes that cross the lines. Take plenty of space, also always give initials of names, and the correct address to identify people properly. If using a telephone be sure to use the exchange. We receive many ads without this important feature. Don't send us "card of thanks," we don't believe in them, and charge regular rates for publishing them, twenty-five cents a line. All copy must be in by Wednesday evening.

# Have You Ever Tried the Milk Diet?

DOCTORS say it is a wonderful cure for all sorts of digestive difficulties. It furnishes elements needed to make new blood, to repair worn-out cells, to maintain growth of tissues. Yet it is one of the most easily digested, easily assimilated foods known. When no other food seems to agree, milk will provide ample nourishment.

## WANZER'S MILK

is pure, fresh and wholesome. It is bottled in a modern plant, in a clean, sanitary manner. Wanzer service is thoroughly reliable. For Wanzer Milk, Cream or Butter, call Hyde Park 207, Stewart 139, Calumet 317.

### Sand—$6,000 a Ton.

Wilmington, Del., has a dozen of the most expensive sand piles in the world. It costs $6,000 a ton, says the Portland Oregonian.

The reason for this, and incidentally a reason for high-priced gloves, was revealed the other day by a prominent leather merchant.

Wilmington is the chief glazed-kid center in the United States. About 20 per cent of the raw skins entering the United States come from China and are imported at the rate of about $1 a pound.

"What, then," asked the merchant "would be more natural to the cunning celestials than to increase the weight of the skins by sprinkling sand on them?"

That is just what happens and the result is huge piles of sand at receiving plants here, where the hides are dried and prepared for manufacture.

### Peanut Not Really a Nut.

The peanut is not a nut; it is a pea. It is a trailing, straggling plant, growing from one to two feet high, with thick, angular, pale green, hairy stems and spreading branches, and it ripens its fruit or its peas or nuts, under ground. It is a strange habit. Small yellow flowers are borne at the joints where the leaves are attached to the stems and as soon as pollination takes place the flower fades and the "peg," as it is commonly called, buries itself in the ground, where the pod develops.

### Putting It in a Nutshell.

An ounce of prevention is worth a pound of cure; only we don't know when to apply the prevention and we do know when to apply the cure.

*We Want a Slogan to Express the Industrial Use of Gas*

WE wish to secure a single phrase or slogan which will summarize the advantages of gas for industrial purposes. Gas in industry is much more than a fuel. Gas is so dependable, economical and flexible for a wide variety of factory and shop uses that it becomes in a sense an improved process. The use of gas for a thousand different factory operations makes for increased efficiency, better product, more uniform production and all-around economy.

Can you devise a slogan which will tell this story in one brief, pithy phrase? To indicate the general character of what we wish to secure, we quote such phrases as "Gas, the 100% Fuel" or "Gas, an Efficient Tool for 1,000 Shop Uses." Do not pattern your slogan after these, or any slogans the Company has used. They merely indicate the general character of what we are seeking.

All slogans must be submitted by October 15, 1921. The judges for the competition are: Hon. Edward N. Hurley, former chairman of the U. S. Shipping Board; W. Frank McClure, chairman, Advertising Council, Chicago Association of Commerce; W. H. Graffis, editor, Gas Record.

*We suggest it would be of decided assistance for you to be fully informed regarding gas and its scope for industrial use. Upon request we will gladly send you informative literature upon this subject.*

# HALSTED AND WEST NEWS

All West of Halsted St. 55th to 75th Sts.

The schools all opened Tuesday with an unusually large attendance.

The opening of Union ave. through from 63rd st. north is absolutely necessary to relieve the over travel on Halsted st.

There is no waste circulation to the Times. Every paper is delivered by mail carrier and reaches from one to five readers.

From the number of colored children attending the schools in parts of this district, it looks as if they could have schools of their own.

Few people are using the free garage the Businessmen's Association has provided for them, and the congestion on Halsted st. is very bad, especially in the evenings.

Mrs. Julien W. Mathis, formerly of 6430 Peoria st., now of La Porte, Ind., announces the marriage of her daughter, Mariar, to Carlos D. Wiseman of Hyde Park.

Complaint that every "soft" drink place in this part of the city is selling rotten booze, and judging from the number of drunks Monday day and evening, it must be true.

The police have arrested a number of autoists who insist upon driving with their "cut-outs" open. If drivers want to make the extra noise, they should be willing to pay for it.

Perez Council K. C. baseball team played the Fire Fighters in a twilight game Wednesday evening at Marquette Manor grounds. A program of interesting athletic stunts and dancing followed, making it a most enjoyable occasion.

Mr. and Mrs. Theo Linstrum, of 5946 Halsted st., and Mrs. Fred T. Linstrum of 354 E. 56th st., returned Labor day after a most delightful six weeks' trip, leaving Chicago by auto and covering the New England states, visiting friends and relatives and taking in points of interest in these states, the most pleasing at Plymouth, Mass., where the Pilgrims landed, and in time to witness their march to church and religious worship connected with the same.

## Sad Death of a Soldier Boy

Alpheus Burke, son of Mr. and Mrs. Omer Burke of 6240 Sangamon st., marched bravely away when his country called, and served two years with Co. B. 131st Infantry, and fought all through the blood-stained fields of France. His comrades, many boyhood friends, dropped at his side, but he fought on and came home unscathed, greatly to the joy of his beloved parents. Later he secured a position as assistant engineer with the Wilson Packing Co., and was one of its most efficient employes. Sunday evening, noting a slight leak in the steam in the big boilers, he and his engineer rushed to shut off the steam when the cylinder head blew out and pinning both against the wall, killed them instantly. The remains were brought to the home of his parents, from where they were buried Thursday with full military honors under auspices of Capt. Marshall Field post of Veterans of Foreign Wars, of which he was an honored member. Interment was at Mt. Greenwood. He leaves besides his bereaved parents two sisters, Miss Marie Burke and Mrs. Albert Korinek.

### Wild Elephants Against Horsemen.

In Burmah wild elephants are pitted against horsemen and elephant riders, and often rout their trained relatives by the reckless fury of their attacks. The "cornac" has to stick to his seat, while his hutti quirts and careens around like an exploding locomotive or encounters his adversary with the force of a catapult. Fighting elephants guard their trunks by doubling them up like a clinched fist, while using their heads like battering rams or they stand shoulder to shoulder, after the manner of the fighting boars, and after a prelude of sidelong pushes, suddenly hew away at each other with their tusks. During the process of the duel the hutti seems to forget or ignore his rider, but if he has received a fatal wound the cornacs have to jump off and run for their lives, experience having shown that wounded elephants generally expire in a paroxysm of rage.—Detroit News.

## WANTED TO "GO IT ALONE"

**Many Years Ago Missouri Declared Her Ambition to Become an Independent Republic.**

Missouri once had intention of setting up as an independent republic all by herself. The Session acts, state of Missouri, 1838-1839, contain a memorial to the congress of the United States relative to the Santa Fe trade. It tells of an expedition of traders to Santa Fe in 1812 from St. Louis, though it is not specifically stated that they went over the Santa Fe trail.

The early Session acts of the Missouri legislature, starting in 1824, contain many interesting resolutions and memorials to congress on all manner of political and historical subjects. Incidentally the Missouri constitution of 1820 starts with the preamble that the citizens of the state agree to form and establish a free and independent republic by the name of the state of Missouri.

Missouri was one of the pivotal states in the history of this country. It was made such in the ancient fight in congress over the slavery question, which took up the admission of free and slave states and considered the balance thereof in congress. Missouri was also a pivotal state in yet another and larger sense—she was the jumping-off place for that wild and unknown country called the Wild West—the land west of the Missouri river. She made the midway point between the frontiersmen of Kentucky and those of the great plains, occupying a generation of history herself as a frontier commonwealth.

### Washington's Religion.

There has been considerable controversy over the extent to which religious belief entered into Washington's character. His own chronicles show that most of his Sundays, except during the presidency, when he felt obliged to set an example, he spent in answering letters, going over his accounts, hunting or doing any business that those with whom he was negotiating had no scruples. In choosing people to work for him he set up no barriers of creed judging men from the standpoint of honesty, industry and ability.

### The Number of Hairs.

Data gathered in this relation show that fair-haired persons possess, commonly, between 140,000 and 160,000 hairs on the scalp, the number being about the same for man and woman. Dark-haired persons have on an average, about 105,000, while red-haired persons are said to have only 90,000 hairs. But the latter apparently possess one great advantage in the fact that they retain their hair better, seldom becoming bald. Their hair is much coarser than that of dark or fair-haired persons.

### Improvement Always Mutual.

No improvement that takes place in either of the sexes, can be confined to itself; each is a universal mirror to each; and the respective refinement of the one will be in reciprocal proportion to the polish of the other.—Colton.

## Harvard Theatre

September generally sees the opening of the best pictures of the season, those taken during the summer at the plants of the big producing houses, and Manager Coston of the Harvard theatre who was early in his bookings will have an exceptionally fine lot of films for this month. For the coming week the attractions are varied and top liners, everyone.

For today and tomorrow, Friday and Saturday, Sept. 9th and 10th, he offers Dorothy Phillips in "Man, Woman, Marriage," the greatest love story of all ages, told in the virile style of Allen Holubar. Could you witness for a moment the barbaric beauties of the court of the ancient Rome do you think you could find comparison anywhere in the world today? Beautiful women, strong men, music and dancing everywhere. Just as they were then they are today for in "Man, Woman, Marriage" Allen Holubar has contrasted the pagan courts of ancient Rome with the fashionable modern world. They are just two of a thousand terrific scenes in an unparalleled screen achievement. Also other select short playlets and Topical News.

ALICE BRADY

For Sunday and Monday, Sept. 11th and 12, continuous 2 to 11:30, Mr. Coston will present the most brilliant of movie stars, Betty Compton, who has endeared herself to Englewood hearts in several plays, in "At the End of the World." The story concerns the beautiful daughter of an Englishman who keeps a gambling hall and cafe in Shanghai, China. The father is killed in a gambling row and the girl, although in love with Gordon Deane, marries William Blaine, a Shanghai banker, thinking Deane has gone away never to return. As the story progresses, the destinies of two other men, Donald MacGregor, a deeply religious seafaring man who believes that Cherry loves him and Harvey Allen, a weakling who commits a forgery in order to shower her with gifts, are interwoven withe her own. The climax takes place on a far-away lighthouse island where Fate has brought the three men and the girl together. Also Fatty Arbuckle with Buster Keaton and Al St. John in the classic comedy, "The Cook." Pathe News and, matinee only, "The Purple Riders."

On Tuesday, Sept. 13th, matinee and night, the beautiful and talented Alice Brady in "Little Italy." The story concerns the life in a thriving colony of truck farmers who live near the great New York market, carrying on a brisk trade in garden produce and growing wealthy, but remaining aloof from the American life all about them, and retaining all their native customs, beliefs and feuds. Also Burton Holmes Travelogues, Christie comedy and Gaumont News.

On Wednesday, Sept. 14th, matinee and night, Mr. Coston will offer the wonderful American drama of today, "The Blot." This is pronounced as a greater heart-story than "Humoresque." A play of the depths and heights in human life that will appeal to your better conscience. The cast is an all-star one and one of Lois Weber's best productions. Also, a new two-part screen comedy, Screen Magazine, and Topical Events.

### Pumpernickel.

Pumpernickel is the rye bread used by the Westphalian peasants, which in some other parts of Germany is regarded as a great delicacy. The loaves are sometimes 60 pounds in weight. The name is said to have originated in the saying of a French cavalry soldier, who rejected the bread with disgust, saying it was only "Bon pour Nicholas"—that is, fit or good for Nicholas, his horse.

## See the Ku-Klux-Klan at the Marlowe

The Marlowe's opening week has been one of success and the regular fall and winter season promises to be one that will be enjoyable for the favored patrons of this popular house, the first in this part of the city that has lowered its prices to those of before the war, and still keeps up the excellence of its performances.

For Saturday and Sunday of this week, Sept. 10th and 11th, in addition to the five big vaudeville acts will be a wonderful tableaux act of feature dancing and posing by a troupe of ladies lately arrived from gay Paree and the capitals of Europe. Also the greatest novelty of the season, Geden's rabbit circus, showing rabbits that have been really educated to perform and understand the commands of their teacher. The picture event will be "The White Riders," featuring the night ridings of the Ku Klux Klan, and the latest of the mysterious actions of this mysterious organization.

## Englewood Theatre 100 Per Cent Union

"FOLLIES OF NEW YORK"

If there is any value to a laugh, those who go to the Englewood theatre week of Sept. 11, when "Follies of New York" will be the attraction, will be money in pocket for their visit. Fred Finder has for years been most successful in entertaining burlesque audiences. His opposite, Lew Lederer, works well with him and is a most capable laugh-getter. Having secured competent mirth-provokers, Mr. E. Thomas Beatty proceeded to devise a

sufficiently funny vehicle for his production and has furnished for "Laughs a la Carte." But while the importance has been given to making this show an amusing one, the producer has not lost sight of the fact that burlesque audiences expect more than fun. He has given them a beauty show as well as a laughing one. Prettier girls than his choristers could hardly be imagined. More attractive wardrobe could hardly be expected, and scenery representing a higher degree of stage artistry would be a superfluity. The cast is in every way very competent to support the comedy workers and is composed of such talent as Sadie Banks, Al Turpie, Carol Carey, Mae Kelly, Wallace Jackson and Murry Welsh.

Ladies' bargain week-day matinees, seats 25c.

### Ancient "Chapman."

In olden days there was a merchant who would buy his stores in the cheapest market, load them into a wagon, and drive about the country, selling where he could. He was known as a chapman and the modern name is derived from that word. As the merchant's chief stock in trade was a jovial personality the word chap has long meant a jolly fellow.

### Worth-While Americans.

Americanism is loyalty to American institutions and the only loyalty which is worth while is a loyalty which expresses itself in service and sacrifice. There is great need to remember that the quality of our citizenship is determined by the quality of the character of citizens.—From the Churchman.

**To Save Is to Have**

Messages to Seekers of Success

Suppose you save 25 cents a day. That does not mean much to the average man. You won't miss it.

Yet that 25 cents a day in ten years grows to nearly a thousand dollars. And the interest, which we pay you for saving your money, brings the total to well over eleven hundred dollars.

Think of what you can do with this.

**Realize Your Dreams**

Just a few years of small but steady savings will bring you many of the things you are longing for. Perhaps you want a car. Perhaps you want to buy the farm next to you. Perhaps you want to start a son in business, or to go traveling, or to educate yourself or your children.

Saving will do all these. And best of all, you will have formed the saving habit and will never be one of the nine men out of every ten who pass their last years penniless—in the poorhouse or dependent on others.

The T. Y. Stack family, 1104 104th pl., returned from a delightful camping tour spent in Wisconsin. By motor they were able to visit all the pretty and interesting spots of nature and enjoy themselves in a decidedly wholesome way.

Morgan Park Auto Sales Co. has received a permit to build a brick building at 2339 W. 111th st., value $30,000. Work is to be started at once. This is a decided business boost for the Ridge and no doubt Western ave. and 111th st. will become a popular driveway.

Mr. and Mrs. Tony Westler, former Ridge residents, who lived on 99th st., celebrated their silver wedding anniversary in their new home in Evanston. Rev. Lienk of the Ridge, their former pastor, performed another wedding ceremony. More than a score of Ridge friends attended the celebration.

Mrs. J. Middaugh returned last Thursday from a visit to Toronto, Canada, and a sight seeing trip through eastern Canada, visiting several of the larger cities, stopping to visit her sister in Detroit, Mich., on the return trip. She reports a delightful time. She was accompanied by her son Donald.

Miss Irma Fremont, 2158 111th st., returned on Monday from a two weeks' visit at Paw Paw, Mich., and Waverly Beach, Ind.

Beautiful September weather, ideal surroundings and lovely groups of people made the annual Ridge Park field day a decided success. The morning's water sports, in which the kiddies showed remarkable skill in the various contests, brought forth much applause from parents and friends. The foot and bicycle races were gladly welcomed and the lads exerted special efforts to succeed. The attraction of the day, the third of the series of five games in which Morgan Park and the Ridge are working for the silver loving cup, brought the crowds closer together and caused much cheering as the two rival teams played their part. Morgan Park won. Pullman Technical High school band gave a concert.

The bride's gown was of white charmeuse satin and silver lace.

Eighty guests enjoyed the reception given at the home of the bride's parents, Mr. and Mrs. P. M. Bluethner, 10057 Aberdeen st. The bridal couple left immediately for a honeymoon trip in Indiana.

### No Times Ads Wasted

The Englewood Times is distributed by U. S. letter carriers; every copy goes direct to the hands of a subscriber who pays for it and therefore values it. Every issue contains all of the clean local news of the territory between Garfield blvd. and south city limits, State st. west to Chicago Lawn, gathered by our staff of correspondents who are residents of the different districts, thus being able to print the news that interests the people in each district, and making the Times the only reliable means of reaching the real active people of the territory. There are no blank tickets in an Englewood Times ad., every one is read by people who have money to spend or they would not pay for the paper. We have advertisers who have carried advertising with us for over thirty years continuously. Why do you suppose they have done it? Whatever you want to dispose of, whether merchandise or real estate, have a room to rent or a flying machine to sell, want a maid or a wife, want to exchange a threshing machine for a cambric needle—you will find it profitable to advertise it in the wide awake columns of the Times. Try it.

**Peanut Known as Goober Pea.**

The territory of tidewater Virginia grows more peanuts than any other part of the United States. To that territory may be added parts of the Carolinas, also great peanut-growing states. Some places in the Carolinas the peanut is referred to as "the goober pea."

**Love's Itinerary.**

J. B. thinks a novel idea for some novelist would be to begin a story with its hero and heroine meeting in Friendship, N. Y.; then have them journey successively to Love, Va.; Kissimee, Fla.; Ring, Ark.; Parson, Ky., and finally settle down in Home, Pa.—Boston Transcript.

# SULLIVAN'S SENSE AND NONSENSE

### Not for Us

The fairies have never a penny to spend,
They haven't a thing put by,
But theirs is the dower of birds and of flower,
And theirs are the earth and the sky.
And though you should live in a palace of gold,
Or sleep in a dried-up ditch,
You could never be poor as the fairies are,
And never as rich.

Since ever and ever the world began
They have danced like a ribbon of flame;
They have sung their song through the centuries long,
And yet it is never the same.
And though you be foolish or though you be wise,
With hair of silver or gold,
You could never be young as the fairies are,
And never as old.

—Rose Fyleman.

A wife at home is worth two on vacation.

I know some people in Englewood that work about as hard as the spare tire on an automobile.

The new thousand dollar bills are said to be very beautiful. It can't be proved by me.

I am firmly convinced that it is the undertakers who are booming the home brew campaign.

"Curves make women angelic" rhapsodised an idealist. Yep, and I also rise to remark that curves often make angels of foolish speeders.

A mother writes me to know "how to keep the young folks from saying "I seen" so extensively. Easy; just have them say "I lamped."

Own up! Honor bright! Don't you just wish you were going off to school with the kiddies these mornings?

"It has been exceedingly warm the past week," as announced exclusively in the Chicago American. Don't such stuff wilt your collar?

Now they are quarrelling over the profits of the Lord Mayor's big show on the Municipal pier. Why not clean the alleys with it and settle the matter?

Dr. Lyons insists that the Auburn Park soil is most prolific. He offers a fine nine-pound boy that "was found under the rose bush" at his happy home there last week.

No relief in increasing the married exemption from income tax from $2,000 to $2,500. The difference wouldn't even pay for the ring these days.

Casey says, "A mon do be known be the company he kapes away frum."

The hand that formerly "rocked the cradle," now guides the steering wheel.

As soon as starving Russia received the news that Uncle Sam would feed them they immediately began "cussing" the benevolent old chap.

The farmers have reduced the price of milk to the dealers and say that the dealers should reduce to ten cents a quart.

I have a sneaking idea that the numerous pictures of bathing girls are not entirely to show that they bathe.

Howcum? Certainly if the ladies, God bless them, want to wear knickerbockers, let them wear them, but do let them be practical and not pink silk and sich.

Say, girls, look a'here, what do you think of the Minneapolis judge who has ruled that so long as women exercise their franchise of voting, etc., they also may be compelled to pay alimony the same as other citizens?

A Joliet doctor who refused to be a barkeeper and would not write a booze prescription for a man, found it necessary to shoot the fellow to protect his life from his assault. Some physicians object to prostituting their profession at any rate.

Gosh, how some of the landlords are kicking because their valuations are raised because they raised their tenants' rent from 50 to 100 per cent! If their properties are worth so much more, they surely should be made to pay for the increased value.

Chief Fitzmorris orders the arrest of motorists who leave ther "cutouts" open. How in thunder is a fellow to attract attention to his yellow Ford car built over as a racer, or the big guy with a ten-thousand machine get sufficient credit for being a hellofa-fellow unless they can crack the ear drums of the public with their screeching whistles and open cutouts?

Nearly every week one of our war ships brings over from the poppy fields of France the remains of some of our brave soldier boys who made the supreme sacrifice for the glorious flag of our country. Meantime congress and most all of the state legislatures are wasting precious moments refusing to take care of those of the boys left after them, or other boys who were able to return. Is it true as Voltaire said, "Republics are ungrateful"?

## Coming to Englewood

Lincoln Memorial Circle No. 90, Ladies of the Grand Army, are considering moving to Englewood from Woodlawn. This is one of the finest circles in the department, noted for their kind deeds toward all mankind but especially to the veterans of the civil war. At their last meeting Mrs. Blanche Berna, 5841 Fairfield ave., president of the circle, obligated Comrade Mann, who served 18 months in Ft. Leavenworth and who only weighed 75 pounds when he was given his liberty. He is now 86 years of age and in very good health. Ed Fournier, a son of a veteran and a member of Camp 6 Sons of Veterans, took the obligation. Mrs. Berna also initiated two ladies, making sixteen new members this year. Indications are that 1921 is to be the banner year for Circle No. 90. Englewood may be proud of such an addition if the circle decides to locate here.
